

Herman Miller introduces Layout Studio

AN ADAPTIVE FURNITURE SYSTEM FOR THE GLOBE.

Layout Studio offers an adaptive system that gives you more from any office space. Created and developed by Herman Miller's international Research and Development team, Layout Studio's design is informed by research conducted in across the globe. This provided new insight to the rapidly growing need for offices to be more flexible and provide furniture that nurtures all manner of possibilities. Layout Studio provides solutions for offices of every size, from established global organisations to small forward thinking start-ups.

Exceptional design is at the heart of every Herman Miller product and Layout Studio is no exception. It marries form with function, and is available in 14 different surface finishes and a huge range of fabrics.

Design features include:

- Constant core components with a wide range of materials and finishes to ensure versatility.
- Hidden intelligence. Each angle, corner, weld and finish is carefully considered, creating products that feature crisp lines, simple forms and beautiful aesthetics .
- Three leg styles. Engage (53mm triangle with shared under-structure), Engage+ (height adjustable, 53mm triangle, 610mm to 850mm) and Core leg, with which the whole system is individually height adjustable.
- Twin beam design. Provides an absolutely stable under-structure from which all screens, monitor arms and wire management can be supported.
- Screens. A range of options including desk up, modesty and floorstanding in a range of materials and finishes.
- Workwall, credenzas and an extensive programme of meeting tables within the portfolio.

LAYOUT STUDIO: AN ADAPTIVE FURNITURE SYSTEM FOR THE GLOBE.

Layout Studio embodies Herman Miller's attention to detail. Each element is rigorously designed, be it a wire management tray, a leg frame or a desk surface. Every part of the product's design is dealt with in the same manner, an approach that means compromise is not accepted.

Layout Studio adapts to changes in technological, social and working trends throughout the world. Layout Studio gives Herman Miller a new platform with which to demonstrate its understanding of the changing needs of the modern workspace. It can facilitate personal one-to-one meetings and larger scale team conferences, provide creative space for brainstorming, and accommodate any individual working style.

Herman Miller is committed to sustainable business practices. Layout Studio uses materials that can be sourced locally, so the manufacturing process can take place near the final destination to reduce shipping and environmental impact. At the end of the product's life, disassembly is easy, allowing for quick and effective re-use, refurbishment or recycling.
